**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 15 is objected to because of the following informalities: in claim 15, line 9, it appears that "said seal mechanism" should be --said sealing mechanism--.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3,10,13 are rejected under 35 U.S.C. 102(b) as being anticipated by Sundholm 2,923,443.

Sundholm discloses a sanitary fill valve assembly as seen in Figure 1, which comprises a housing (13) having an inlet passage (17) for receiving a viscous flowable material from a viscous flowable material source (11), an annular chamber (16) for receiving the viscous flowable material from the inlet passage, an outlet passage (25) from which the viscous flowable material is dispensed, an ON/OFF positive controlled product dispenser for dispensing the viscous flowable material from the chamber (col. 2, ll. 33-53), a product flow regulator (18) having a regulator body extending for longitudinal movement substantially perpendicular relative to the product dispenser, the inlet passage and the outlet passage and across the entire flow area at the inlet passage, the regulator body adjustably regulating the rate of flow of the viscous

flowable material into the chamber and having a substantially tapered tip portion (18a) that combines with a corner sidewall portion of the inlet passage to create a flow passage through which the viscous flowable material flows into the annular chamber as seen in Figure 3, wherein the product dispenser comprises a piston cylinder (26), stop means (20,22,23) for limiting the displacement of the product flow regulator.

***Allowable Subject Matter***

4. Claims 14-21 are allowed.
5. Claims 4-9,11-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 5/1/2006 have been fully considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
